

In case you encounter a bad web site ...

1. Hide under your table to avoid any lengthend exposure.

3. Roll out of the immediate danger zone while keeping your eyes sheltered. Cry out loudly in order to inform others.

4. Exit the contaminated area. Be cautious not to risk any direct visual contact.

5. Huddle in fetal position and wait for help. It's ok to be depressed.

6. As soon as you are able to sustain an upright position run for your life.
